

2012 AASP/NJ ANNUAL MEETING

Thursday, October 11, 2012

PRESENTING - PARTS PROCUREMENT MANDATES DISCUSSION

Insurance mandated parts procurement programs, such as the State Farm Parts/Parts Trader program, are THE biggest issue to impact the collision industry in recent years. They have the potential of negatively impacting both your profits and the way you do business. You need to attend this critical meeting to better understand how these programs are being implemented, what feedback is stemming from the markets facing it first-hand, and how it might affect you if it is allowed to enter the New Jersey market. SCRS and AASP have been at the forefront of researching and educating the collision industry on this topic, and the SCRS Executive Director, Aaron Schulenburg, will present the most current information available on the program, as well as answer your questions.

Collision Shops - Insist That Your Part Venders Attend!

Mechanical Shops - Get the Latest on Right to Repair!
